

## MediaBase Implementation

Expert Installation and Integration of Media Streaming

### Features

- Installation and configuration of Kasenna MediaBase server software
- Configuration of MediaBase server network interface
- Installation, creation, and configuration of the necessary XFS filesystem
- Creation of logical volumes for media asset storage
- Installation of GRIO [guaranteed-rate I/O] software, MediaBase database [bundled or unbundled], and MediaBase client [software only] on a specified platform
- Installation and configuration of encoders
- Testing of streaming from a MediaBase server to a client on local network
- Documentation of the implementation process

### Benefits

- Accelerated productivity: fast, accurate setup of your MediaBase network
- SGI technical expertise: your product implementation is handled by industry experts who have a vested interest in your success
- Knowledge transfer: SGI provides basic skills to help you maintain your MediaBase product

### Implementation Solutions for Web-Based Media Streaming

Award-winning Kasenna™ MediaBase software integrates everything you need to develop and deliver the ultimate in real-time, interactive, Web-based media streaming solutions. To accelerate installation and integration of this leading-edge solution, SGI offers the MediaBase Implementation service.

### SGI Technical Expertise

All MediaBase implementations are delivered by trained and experienced SGI technical engineers specializing in MediaBase to ensure smooth implementation and efficient integration of new and existing technologies.

### Knowledge Transfer Helps Maintain Your Product Investment

To ensure long-term success with your MediaBase implementation, your SGI Managed Services representative will provide knowledge transfer on basic concepts and fundamental skills as well as discuss issues specific to your implementation. It's just another way SGI helps your staff gain the confidence needed to maintain your product investment.

### SGI Managed Services

SGI Managed Services include a broad range of product-focused services to maximize system performance and accelerate productivity. Services include hardware installation, system deployment, implementation, and on-site and remote system management. Each service is delivered by an experienced SGI engineer.

### SGI Technology Solutions

SGI Technology Solutions are empowering a world of innovation and discovery by providing top-performance systems, solutions, and services to the world's leading technical and creative users. With exceptional expertise in high-performance computing, advanced visualization, and the management of complex data, our specialists have the resources and skill sets to architect, implement, and support the most effective technology solutions for the 21st century.

### To Learn More

Contact your local SGI sales office to learn how SGI Technology Solutions can help you accomplish your technology goals and optimize your technology investment.

SGI Technology Solutions provides expert-to-expert technical services and solutions:

- Systems Engineering
- Professional Services
- Managed Services
- Support Services
