sgi **INNOVATION FOR RESULTS**

SGI Global Developer Program

Solving today's largest technical and creative problems

SIGN UP NOW to receive the benefits of membership in the SGI Global Developer Program.

GO TO sgi.com/developers/program to learn more about the resources and services available to ISVs, SIs, developers and consultants.

DON'T WAIT to become a part of this free dynamic program customized just for developers!

Program Membership Levels

Developer Online
This level is intended for companies without commercially available software or that do not need application porting support.

Developer Plus
Developer Plus membership is extended only to vendors of commercially-available applications that fulfill certain business requirements such as revenue forecasts etc.

Membership for both levels is free!

Benefits
Approved developer program members can take advantage of the benefits such as discounts, training, technical tools, and marketing/business development.

Discounts
The SGI Global Developer Program is committed to providing significant discounts on development systems and related services to our members. These discounts offer excellent values on innovative products and outstanding support to maximize your productivity and help you make the most of your development efforts.

Applying for Membership
Decide which membership level best fits your needs and complete the appropriate online application at sgi.com/developers/program/.

This application step provides a profile of your company to SGI marketing executives, global account managers, and system engineers, allowing them to determine how your products can compliment the SGI product line and increase both of our companies' sales. When SGI receives your signed Agreement, your membership becomes active.

Bring Your Creativity to SGI
The SGI Global Developer Program targets independent software vendors (ISVs), developers, system integrators (SIs), and consultants. By joining the free SGI Global Developer Program, you will have access to resources for promoting your business and streamlining the process of providing your solutions on SGI platforms. The program provides technical information for developing and porting your application, access to an online porting system, discounts on SGI development systems, and opportunities for promoting your SGI-based solutions.
