

SGI® and Oracle® Present... SGI and Oracle Roadshows

Come and learn about SGI's unique capabilities for Oracle technology

Spend some time with us and bring customers to your nearest Oracle sales office to discover why there is so much buzz about SGI's unique capabilities for Oracle technology. Come and hear Oracle present the power of Oracle 11g and the TimesTen database running on up to 12TB of memory in a single system image on SGI bringing orders-of-magnitude performance improvements to datacenter applications. All of this on an open Intel/Linux platform with unmatched performance, scalability and flexibility.

Learn how experts from Oracle, SGI, Intel and LSI come together to provide data challenges more effectively.

Why is this important to you? SGI offers a completely non-competing platform which

- Runs fast – five times faster than what customers have now
- At ½ the cost
- Using ½ the floor space
- And ½ the power
- On a non-proprietary standards platform (Linux)

Customers Can Win Big!

There will be a customer drawing at every event. Customers will have the opportunity to win an Apple 8GB Apple® iPhone, valued at \$599.00. There will be one iPhone winner per event.

Oracle Sales Representatives Have an Incentive Too!

Oracle sales representatives have the opportunity to win a HDTV valued at \$2,000.00. It's easy, for every customer that shows up to the seminar, an Oracle representative's name will be entered into a drawing to win a HDTV. Therefore, the more customers that attend the event, the greater the opportunity to win the TV! At the end of the roadshow series, SGI will announce a winner for the grand prize.

Help SGI get customers to the following events located at Oracle sales offices.

Roadshow Locations and Dates:

**Hot Breakfast Included

Irving, TX	August 28
El Segundo, CA	September 27
